

AMBRA CASERTA

MARKETING ANALYTICS & ENABLEMENT MANAGER

New York, NY • (914) 403-6010 • ambra.caserta.ac@gmail.com • linkedin.com/in/ambracas • [Portfolio](#)

PROFESSIONAL SUMMARY

Data and analytics manager with 5+ years translating complex enterprise datasets into actionable go-to-market, audience segmentation, and organizational enablement strategies. Proven track record leveraging SQL, Power BI, Python, Tableau, and R to align cross-functional stakeholders across Marketing, HR, Finance, and Business Intelligence. Skilled at designing executive KPI frameworks, evaluating campaign and program performance, and converting consumer and workforce data into scalable, high-impact business decisions.

CORE COMPETENCIES

Analytics & Data Strategy: SQL (Stored Procedures, Scripting), Power BI (DAX, Semantic Layers), Tableau, Python, R, SPSS, Excel (Macros/VBA), Domo, Predictive Modeling, Audience Segmentation

MarTech & Enablement Systems: Enterprise LMS Platforms, BambooHR, CRM Analytics, Capability Modeling, Digital Advertising Frameworks

Program & Stakeholder Leadership: Cross-Functional Partnership (Marketing, HR, Finance, BI), Executive Reporting & KPI Frameworks, Change Management, Go-To-Market (GTM) Strategy Alignment

EXPERIENCE

Learning & Enablement Manager | Danone (via HireTalent)

Apr 2026 – Present

North America

- Led a mandatory compliance and capability enablement campaign across a global workforce ahead of a legacy system retirement, mitigating enterprise risk and delivering completion analytics to HR and business leadership.
- Increased self-directed learning engagement by 30% within 90 days by leveraging audience segmentation and behavioral analytics to optimize targeted enterprise communications.
- Supported the organization's shift toward a skills-based workforce model, aligning enablement programs to critical enterprise competencies in partnership with HR Business Partners and commercial leads.
- Partnered with Digital, Data & AI (DDAI) leadership to launch AI literacy pathways across the global workforce, supporting workforce readiness and capability modeling.
- Directed enterprise-wide learning and enablement events for thousands of employees across multiple regions, managing cross-functional alignment, logistics, and post-event performance analytics.
- Engineered Power BI reporting dashboards to track engagement, completion, and workforce readiness metrics; maintained seamless business continuity during system migration.

Data Analyst — Key Accounts | Plant-A Insights Group

Dec 2025 – Apr 2026

New York Metropolitan Area

- Conceptualized and implemented interactive Tableau dashboards, synthesizing complex audience and market data into actionable insights that boosted team execution efficiency by 15%.
- Mined CRM engagement data to diagnose customer drop-off patterns, delivering segmentation-based recommendations that increased audience participation rates by 10%.
- Partnered with executive leadership and cross-functional stakeholders on strategic deliverables, achieving 100% on-time project execution across major media accounts.

Data Analyst | Futeur.ai

Jun 2024 – Dec 2025

New York, NY

- Built Power BI dashboards tracking go-to-market performance, user conversion, and acquisition KPIs, supporting a 20% surge in user acquisition and aligning reporting with investor milestones.
- Developed the organization's initial user engagement analytics framework, uncovering behavioral insights that directly informed product development and UX optimization.

- Designed executive-facing dashboards and statistical reports, translating complex consumer datasets into clear formats that accelerated leadership decision-making by 25%.
- Authored a cross-cultural master's research project on the Human-AI Trust Gap, analyzing survey data from 200+ respondents using R, SQL, and SPSS to identify key behavioral drivers of technology adoption.

- Spearheaded sentiment and engagement analysis for a global community of 10,000+ members, leveraging data insights to optimize program delivery, audience strategy, and member retention.
- Devised executive-level reporting that helped secure \$250K+ in institutional funding, translating complex program metrics into strategic visualizations for corporate partners and sponsors.
- Identified sponsorship market gaps and designed partner marketing strategies with global technology brands, generating \$100K in direct new funding.

- Managed end-to-end recruitment and operational workflows using BambooHR, reducing average hiring cycle time by 25% while securing top-tier talent and driving a 15% team performance improvement.
- Streamlined onboarding and talent operational processes, improving consistency and employee experience across a rapidly scaling organization.
